TRODAT BESTSELLERS

# CLIMATE-NEUTRAL. AS STANDARD.

After the overwhelming success of the Original Printy 4.0, Trodat has extended its range of products which offer climate neutrality as standard, thus maximising the positive impact on the environment. Since 2013, Trodat produces more than 70 of its best-selling products with the maximum, technically possible content of pre- & post-consumer recycled plastic to reduce their CO<sub>2</sub> footprint.

Only in the last step, the remaining, inevitable CO<sub>2</sub> footprint of these products is offset by investing in Gold Standard climate protection projects recommended by the WWF®. As a result, Trodat offers its best-selling products climate-neutral, as standard!

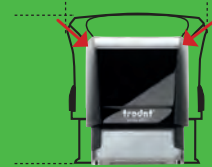

## 3 STEPS

## THE BENEFITS OF MULTI COLOR IMPRESSION AT A GLANCE

- + **Differentiation.** Meet your customer demands for differentiation and individuality. Select your own colour fields for the impression.
- + **Trade Symbol.** Offer your customers unique impressions with colourful symbols and company logos which emphasise their corporate identity.
- + **Process security and repeat orders.** The patented Multi Color manufacturing process guarantees the exact colour and shape throughout the production process and for repeat orders, and that of the replacement ink cartridge.
- + **Top quality impression.** Your multi-colour impression in line with Trodat's high standard of quality.
- + **Variety of colour.** Include any of the 15 available colours for your impression design.

# THE WAY IT WORKS

## TAILORMADE

Individual colour and design requirements are a Multi Color Impression specialty. The text and logo fields can be arranged as required.

## PRECISION

The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

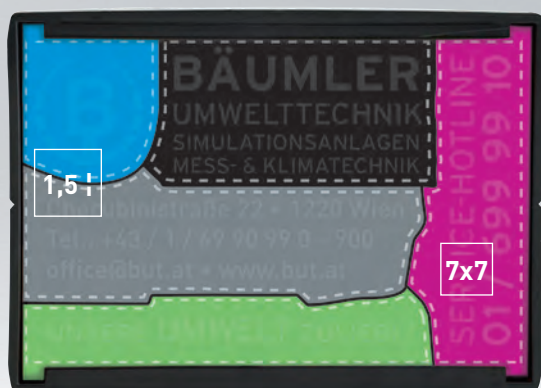

## QUALITY

The result is a set of clean impressions to the usual Trodat level of quality.\*

\*Cartridges can also be inked manually.

# ORIGINAL TRODAT PRINTY 4.0 CLIMATE-NEUTRAL. AS STANDARD.

The Original Printy 4.0 impresses not only with its attractive design - it is also climate-neutral, as standard. During the manufacture up to 49%\* of CO<sub>2</sub> is saved in comparison to its predecessor. The remaining, unavoidable CO<sub>2</sub> footprint is offset by investing in Gold Standard climate protection projects recommended by the WWF®.

\*ECO black and ECO grey. Lower percentage for other colours.

## WE ASKED STAMP USERS

We asked users what, in their opinion, makes a good stamp. There were some interesting responses. Thus we incorporated these ideas when we developed the Original Trodat Printy 4.0.

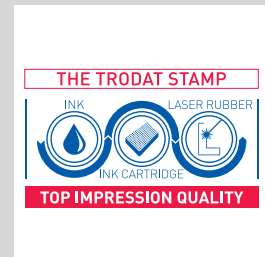

1. Clean replacement of ink cartridge thanks to special grip zone

2. Exact placement of impressions thanks to the panoramic viewing window

3. Lightweight & small, perfect when you are on the move

4. The usage of Trodat materials in combination is guaranteed to have a high-quality impression.

## WE ASKED RUBBER STAMP MAKERS

Numerous surveys with rubber stamp makers were carried out to identify what they expect from the ideal stamp. The valuable results have had a significant impact on the development of the Original Trodat Printy 4.0.

1. Simple mounting of text plates thanks to the raised position of the text plate holder

2. Easy to customise! Countless options for your logos and individual prints on the stamp housing

3. Multi-color impressions help to meet your customers demand for differentiation and individuality

4. Convenient detachable index window which is symmetrical with a large grip

# TRODAT PRINTY TEXT STAMPS

# TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

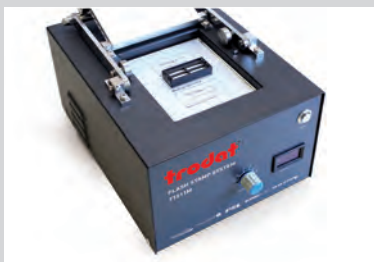

## WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE, PSI E-STYLE AND SUPER SLIM?

### Improved Die Box:

Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

### Trodat Flash Machine:

Quick & easy operation - not only foam, but whole die box can be flashed at once.

### Convenient Inking:

Fast & clean - no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

### 1-Step Assembly Maxlight:

The snap-in die box provides the simplest assembling possible.

### 1-Step Assembly PSI:

The slide-in die box provides the simplest assembling possible.

### No Assembling Steps Super Slim:

Super Slim can be flashed and inked as a whole - no extra die box needed. Only the index card needs to be added as always.

For ordering and delivery of these products, please contact your Trodat sales consultant.
